- Calendar of Activities in Georgia
- Information for Specific Populations
- Data, Statistics & Printable Materials

GSPIN is your community web site for suicide prevention, intervention and aftercare information. This web site has been created to address the specific problem of lack of centralized information, communication, sharing of resources, and need for support for regional/local coalition building, creating a linked network of resources and activities. Its focus is to bring information, resources and services to survivors of suicide and the suicide prevention community in Georgia.

This site is maintained and updated on an ongoing basis. Sign up for the Broadcast Network to be kept informed of training's and activities as they are announced, many of which are free and offer CEU's. As it is your community website, we count on hearing about local, regional and state activities and events from survivors, coalitions, colleges, professionals, organizations and the suicide prevention, intervention, and aftercare community at large. Feel free to keep us informed of what is going on in your community. We are also happy to broadcast related activities that are happening in your community to our network. Please email submissions to info@gspin.org.

Georgia Department of
Behavioral Health and Developmental Disabilities

Funding for GSPIN is made possible through a grant from GA DBHDD Suicide Prevention Program.
